### **Past President – Mark DeBruin**

- Consider running for a position
  - Even if you get nominated, you can still think of exactly where you want to run.

- It looks really good on a resume and applications. One of the only reasons I was accepted into grad school was due to my time on cabinet and being involved across the university
- Keep looking for internships and job opportunities
  - Now is the time that the first round of applicants is over, see what's out there!
  - SOME ADVICE: if you don't have something planned for the summer, get involved with something in some capacity (even if it is not met related). I have found employers and schools look for students who were making an impact over their time off. Volunteering is a great start! (Even if its not at NWS or your local news station, regularly participating in you local food pantry, animal shelter, etc makes a huge impact on resumes for years to come)
- Good luck with finishing off the school year! I hope you all are doing well and enjoyed being a part of AMS this year
- I nominate AJ Rickman for truly the hardest position on cabinet... past president
- Feel free to reach out! I would love to hear from yall!
