All tests significant at $\alpha = 0.05$.
[1] Shapiro-Wilk Normality Test. * denotes the distribution is not a normal distribution.
[2] Welch Two-Sample T-Test. * denotes the paired sample distribution means are significantly different.
[3] Tukey Honestly Significant Difference Test. * denotes the paired sample distribution means are significantly different.
[4] Wilcoxon Mann-Whitney U Test. * denotes the sample distributions are significantly different.
